

# Walking Rainbow

## Rainbow Science Experiment

### Walking Rainbow Experiment

You will need the following materials for the experiment:

- 7 clear cups
- Red, Blue and Yellow Food Coloring
- Paper Towel
- Water

1. Fold a piece of paper towel in half lengthwise and cut it roughly an inch wide. Place it in a cup so that it touches the bottom of the cup and arch it to touch the bottom of the next cup. Cut it to this length. Cut a total of six of these strips.
2. Fill cups 1, 3, 5, and 7 half full of water.
3. Add food coloring to the water. Add red to the first and last cup. Add yellow in the third cup and blue to the fifth cup.
4. Place a piece of paper towel from the first cup into second cup and another piece from the second cup into the third cup etc.
5. Keep checking your experiment and watch the water move and new colors appear.
